Our behaviour strategy is aimed at improving educational outcomes for all children by promoting and supporting their engagement with learning and in developing a positive focus on motivation and wellbeing. All aspects of our behaviour management are built on the foundations of the shared values of our school, which include British Values.

Our School Code

We have an agreed Code (RFR), agreed by the children, which helps us to work together for excellence and meet the aims of our policy. It is based on three key values and behaviours. We expect members of our school community, Children, Staff, Parents and Carers and our visitors to be Respectful, Friendly and Responsible. Regular opportunities are provided for children to explore the above to ensure understanding and awareness.

Individual Needs

We recognise that all children are individuals with their own specific needs, gifts and talents. As a school we look towards offering challenge for all or our learners in a timely manner. We offer further opportunities for enrichment through our partnerships with other schools.

We believe in equality of educational opportunity and aim to provide an inclusive curriculum and environment that meets the needs of all our children by:

- Ensuring pupils' Special Educational Needs and disabilities are identified promptly.
- Making appropriate provision to help overcome any barriers to learning and ensure children have full access to a broad and balanced curriculum and school activities.
- Communicating and working with parents/carers to gain a better understanding of their child, involving them in all stages of their child's education.
- Encouraging and supporting children to be involved in their education.

Working with outside agencies when more specialist help is needed.

- Regularly monitoring the progress of all children
- Supporting pupils to make a successful transition to and from other educational establishments.

Additional Support

As a school we work hard to target support that is tailored to a child's needs. This may be in the form of in class support or through additional support or targeted intervention. This support could be extra group or individual support led by a member of the team.

Regular assessments take place which draws on the teacher's knowledge and experience of every child, their previous progress and attainment and the views of parents/carers and the child. This ensures that barriers to learning are accurately identified and tailored provision put in place. Children are consulted as part of the process and are key to decisions about what support is needed and what they think will work best.

Some children may have social, emotional or mental health needs which may form barriers to their learning, confidence or well-being. A range of individual and group support is used to support children experiencing difficulties in these areas. 'Sunshine Club' is a supportive, welcoming group which runs at break and lunch daily to offer children shared activities and the opportunity to talk through any worries, develop social skills and make new friends. Other provision which may be used includes Protective Behaviours, Social Stories, 'Drawing and Talking,' 'Positive People,' Achievement Books, Social Skills and Friendship Groups.

Parent Partners

Parent Partners work to support communication between home and school and are available at the beginning of every day. They are available to support our families whenever needed. This could include supporting any anxious or upset children or taking and passing on messages. If they are unable to help, they will look to find someone who can.
