

Year 6 Optional Home Learning

Spring Term 2025 - Rainforests

Your optional home learning this term is to research the world's rainforests. You might like to think about:

- Where they are located
- The different animals and plants you would find there
 - What makes them so important
 - Why they are endangered
 - Anything else you find interesting
- You can present your research in any way you choose, for example a power point presentation, a poster, a report, maybe even a model of a rainforest etc.

Enjoy and we look forward to receiving any completed home learning before the Easter holidays!
