In Year 5:

We have lots of **exciting topics** to look forward to. In the Autumn our first topic will be Anglo Saxons and in Science we will be learning about Changes of Materials. In the Spring term, we will learn about the Vikings and forces.

Here's what our Y5 children thought about this year...

Before I started this year, I was sad because I wasn't with all my friends but this year has been one of the best years I have had in school because I have met new people and the teachers are very helpful and kind.

I have really enjoyed all the art we have done this year as we have learnt about lots of different artists and used lots of different mediums. My favourite was the abstract art using lots of colour.

I have really enjoyed maths, science and geography this year especially learning about life-cycles in science. In PE I really enjoyed doing Ultimate Frisbee.

I have loved year 5 because we have really nice teachers and the lessons are always fun! I have enjoyed art and exploring new styles especially the abstract art and working with pastels. Year 4, you are going to have so much fun!

"We can't wait to see
you soon
