3. Overview of the CCTV System

- 3.1 The CCTV system is owned and managed by the School. Under current data protection legislation the School is the ‘data controller’ of the images produced by the CCTV system. Recognisable images captured by CCTV systems are ‘personal data’.
- 3.2 The CCTV system operates to meet the requirements of the current data protection legislation and the ICO’s guidance.
- 3.3 The CCTV system produces clear images which are suitable for the intended purposes, and which can easily be taken from the system when required. [Audio will not be recorded unless we have strong justifications for doing so which have been assessed and documented in our CCTV risk assessment.]
- 3.4 The system comprises of 10 fixed cameras. The School has endeavoured to select locations for the installation of CCTV cameras which are least intrusive to protect the privacy of individuals.

- 3.5 Cameras are sited to ensure that they only capture images relevant to the purposes for which they are installed.
- 3.6 Cameras placed so as to record external areas are positioned in such a way as to prevent or minimise recording of passers-by or of another person's private property. Care will be taken to ensure that reasonable privacy expectations are not violated.
- 3.7 CCTV will not be used inside *the building other than in the immediate Main Reception area*
- 3.8 CCTV systems will not be used to monitor normal teacher/student classroom activity in school.]
- 3.9 CCTV warning signs will be clearly and prominently placed at all external entrances to the site. Adequate signage will be placed at each location in which a CCTV camera is sited to indicate that CCTV is in operation. Signs will contain details of the purpose for using CCTV.

4. Monitoring and Recording

- 4.1 CCTV monitors the exterior of our premises *[list any others here]* 24 hours a day and this data is continuously recorded.
- 4.2 The viewing of live CCTV images and recorded images which are stored by the CCTV system will be restricted to authorised staff with the required security access. Access is via a central computer in the main lobby reception office
- 4.3 All authorised operators and staff with access to images are aware of the procedures that need to be followed when accessing the recorded images. All staff are aware of the restrictions in relation to access to, and disclosure of, recorded images.
- 4.4 Relevant images may be shared with governing body panels reviewing exclusions, disciplinary matters or complaints.
- 4.5 No other individual will have the right to view or access any CCTV images unless in accordance with the terms of this policy as to the disclosure of images.

- 6.2 Requests by individual data subjects for images relating to themselves will be treated as a 'Subject Access Request' and should be submitted in writing to the Data Protection Officer (DPO) together with proof of identification.
- 6.3 In order to locate the images, sufficient detail must be provided by the data subject in order to allow the relevant images to be located.
- 6.4 Where the School is unable to comply with a Subject Access Request without disclosing the personal data of another individual who is identified or identifiable from that information, it is not obliged to comply with the request unless satisfied that the individual has provided their express consent to the disclosure, or if it is reasonable, having regard to the circumstances, to comply without the consent of the individual.

The written contract also states that the security company will give the [School/Trust] all reasonable assistance to deal with any subject access request which may be received by the school within the statutory time-frame.
- 7.3 Security companies that place and operate cameras on behalf of clients are considered to be 'Data Processors'. As data processors, they operate under the instruction of data controllers. Data protection legislation places a number of obligations on data processors. These include having appropriate security measures in place to prevent unauthorised access to, or unauthorised alteration, disclosure or destruction of, the data, in particular where the processing involves the transmission of data over a network, and against all unlawful forms of processing.

8. Data Protection Impact Assessment

- 8.1 Prior to the installation or repositioning of any CCTV camera, or system, a data protection impact assessment (DPIA) is required to be conducted by the School to ensure that the proposed installation is compliant with legislation and ICO guidance. The assessment will be approved by the DPO.
- 8.2 The School will adopt a privacy by design approach when installing new cameras and systems, taking into account the purpose of each camera so as to avoid recording and storing excessive amounts of personal data.
